Full Text - retrieve the full-text of the article

Published Date - article will be published within a specific date range. For nursing use the last five years

Peer-Reviewed - results will be from publications that use peer-review prior to publishing articles in the publication

Research Article - helps limit results to research articles (still requires you to check that they are original research)

Any Author is Nurse - This guarantees at least one author involved with the study is a nurse

Journal Subset - Select 'Core Nurse' & 'Nursing' - articles will come from journals focused on nursing

Geographic Subset - Select 'USA' - helps narrow journal focus to the US.
