1. Tap the StoryCorps icon on the IRSC iPad.
2. Tap + to begin a new interview.
3. Tap prepare an interview.
4. Title your interview: IRSC Reads Danticat: Partner Name interviewed by Your Name
5. Tap What questions will you ask.
6. Browse through the categories to see suggested questions, or write your own!
   A good starting place:
   What is your name?
   How old are you?
   Where you are from? What is your background? (location, region, cultural background, first language, etc.)
   Is there a story you would like to preserve?
   Is it your story or a story you were told?
   How old were you when the story took place?
   Who told you the story? How old were you when you first heard it?
   Who is in the story?
   Tell me about some traditions that have been passed down through your family. When and how did they get started?
   Tell me a great story you know about someone in your family.
   Are there any classic family jokes, stories, or songs you can share with me?
   What do you see as your family’s legacy? What do you hope will be your legacy?
   Are there any traditions that have been passed down in your family? Can you tell me about them?
7. View my list to see your selected list of questions—be sure to pick at least 7-10 questions in order to have an interview length between 10-20 minutes long.
8. Tap Who Will You Interview to enter partner’s name and email address and also tap Add Participant and add your name and email address.
9. Record your interview.
10. Tap done when complete. It will continue recording until you confirm you are finished.
11. Fill out post-interview questions.

Summary:
Include a short sentence or two which describes the subject matter of your interview.

Keywords:
Include the suggested keywords below, plus any which describe your interview content:

General: IRSCReadsDanticat, NEABIGREAD
Organization: IRSC, Indian River State College,
Location: Ft. Pierce, FL

Picture:
If you feel comfortable, post a picture of the two of you.

If you mess up, don’t worry, just keep going. This is real life in real time, so it won’t be perfect.
